

# OUR ENVIRONMENT: PLANTS & TREES

## **Global Understanding**

Each of us may participate in the sustaining of our shared environment for ourselves and for future generations.

## **Global Essential Questions**

- Why is it important to assist in the sustaining of our shared environment?
- How may a person help in the sustaining of our shared environment?
- What sustains the environment?

## **Unit Understandings**

- Plants and trees perform necessary functions in the sustaining of our environment.
- We may assist in maintaining our environment for the future by ensuring that forest resources are replenished.

## **Unit Questions**

- Why are plants and trees necessary to the sustaining of our environment?
- What role do plants and trees play in the sustaining of our environment?
- How do plants and trees perform their roles?
